PRODUCT OVERVIEW

Delivering collaborative products
that meet your design needs

**BUILT
TO INSPIRE**

EGAN

Egan Visual has been in business for over 50 years servicing major brands, such as Microsoft, Nike, Uber and other Fortune 500 companies. We offer a wide range of well-designed, productivity enhancing boards, which provide a blank canvas for ideas to spark. We facilitate creativity, promote the sharing and capturing of ideas while seamlessly and beautifully complementing the existing workspace.

EVS™ Technology

Why Egan's EVS™ Out-Performs Competitor Comparable Surfaces

EVS is Egan's proprietary whiteboard surface that out-performs Porcelain boards. Egan's EVS has a lower gloss compared to Porcelain, which means less glare and greater visibility from all angles. EVS is the most resistant whiteboard surface to ghosting and stains and will retain its bright white surface for decades

EGAN

DIMENSION

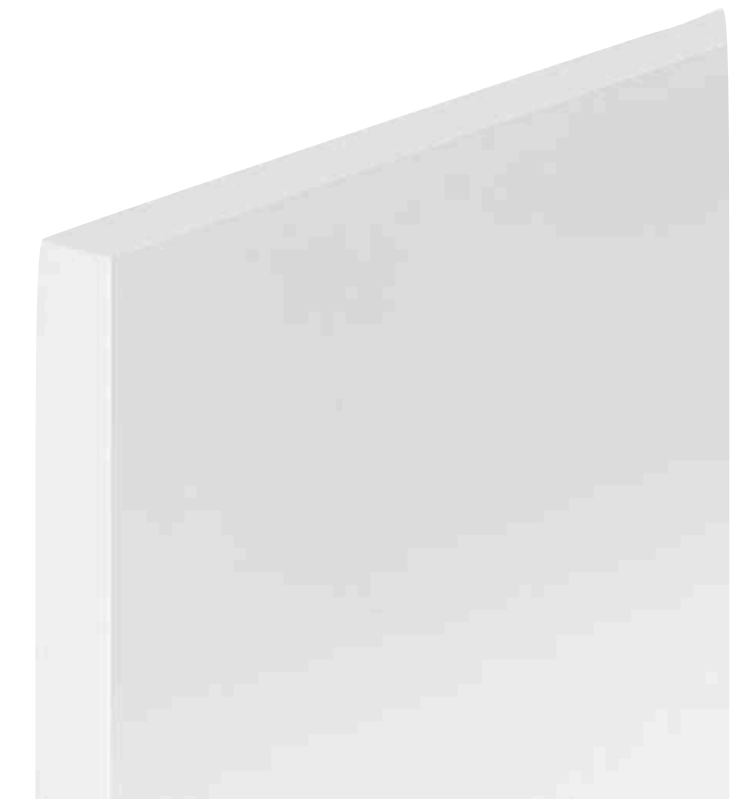

A sleek, minimalist look, the Dimension design family is characterized by a frameless board wrapped in Egan's unique propriety dry erase surface: EVS. Design features are distinguished by its vanishing edge, a frameless surface with clean, crisp lines for a simple and modern design. Suitable for every professional environment.

ARCHITRAVE

Inspired for natural ambient environments, Architrave is an Egan frame design family that compliments the functionality of your board with an earthy, modern design. Architrave products are distinguished by a sturdy 1 1/8" (29mm) oak wood frame. Egan provides four distinct wood oak stains. Custom stain is also available.

GLASSWRITE

The GlassWrite design family is characterized by a frameless guaranteed-to-clean, crystal clear, low iron tempered safety glass. GlassWrite products can be specified with color from Egan's Infinite Color Palette – 1050 colors at no upcharge – or custom color. GlassWrite may also be printed with high-resolution photography and graphics using Egan's unique printing capability: EganINK.

CLASSIC

Egan Classic Boards frames come in two distinct styles: Hardwood or Aluminum Frame. Hardwood Frame boards feature EVS, tackable fabric or porcelain encased in a solid hardwood frame with a 1/2" bullnose edge. Satin lacquer in an open-grain finish gives this robust board excellent appeal. Aluminum Frame boards feature EVS, tackable fabric or porcelain encased in a clear anodized aluminum with precision square mitered corners.

SOUND IDEAS

Constant noise is a common challenge that impacts workplace performance. The Sound Ideas product offering has a range of acoustic and tackable solutions designed to solve noise and display problems. Form and function work together to provide visually interesting installations while reducing ambient noise and increasing workplace productivity. With Egan, you can design interesting installations, colors and configurations using reliable panels to drastically drop sound.
